MiBank Cares program donates computer package to Children's Cancer Ward

Port Moresby 10 August 2022

MiBank today donated a desktop computer package to the Children's Cancer Ward at Port Moresby General Hospital. The desktop computer package was fully configured by MiBank's IT department with the latest Microsoft software.

The presentation was made by Head of IT for MiBank Steven Nori, together with Esiloan Sales & Marketing Officer, Stephanie Sallun. The donation will enable the cancer ward administration staff with keeping accurate and updated patient records and other administrative duties. The cancer ward at Port Moresby General is currently at capacity with 12 patients.

The MiBank Cares program has been built upon MiBank's proud history of supporting the needy in the community. MiBank seeks to strengthen community involvement through this program of making donations to approved charities, with a strong desire to enhance the quality of life and have a positive impact on the livelihoods of all Papua New Guineans.

MiBank is a licensed and regulated Micro Bank operating in communities throughout Papua New Guinea. Its vision is to be a financially sustainable Bank that contributes to financial inclusion. MiBank prides itself on its diversity and banking women is a key focus area.
